

## **JOCKEY CLUB INSTITUTE FOR MEDICAL EDUCATION AND DEVELOPMENT (JCIMED)**

The Jockey Club Institute for Medical Education and Development (JCIMED) serves as the operational hub for educational programmes and activities of the Academy. One of the major roles of JCIMED is faculty development for simulation based medical education. Also, it was designed to offer a cutting-edge learning environment for healthcare professionals, integrating state-of-the-art simulation technology and innovative teaching methods. JCIMED is looking for candidates to fill the following post.

---

### **Position: Training Assistant (Live Model) – Portable Ultrasound Training Course**

#### **About the Role**

We are seeking reliable and professional live models to support a specialized portable ultrasound training program for medical fellows. As a live model, you will serve as a surrogate patient, allowing trainees to practice hands-on ultrasound scanning techniques in a safe, controlled educational environment. This role is essential in helping trainees to develop competency in portable ultrasound imaging while maintaining the highest standards of patient safety and professional conduct.

#### **Key Responsibilities**

- Serve as a surrogate patient for ultrasound scanning practice in designated anatomical regions (e.g., cardiac, lung, abdominal)
- Maintain professional composure and reliability while being examined by multiple trainees and faculty instructors
- Attend scheduled training sessions punctually and comply with all course procedures and institutional policies
- Provide basic feedback on physical comfort during scanning (positioning, probe pressure, duration)
- Follow infection control protocols, including cooperation with probe cleaning and hygiene standards
- Adhere to privacy and confidentiality requirements throughout the course

#### **Essential Requirements**

- Age & Health: Generally healthy adult (18–65 years) with no significant unstable medical conditions
- Medical Screening: Must pass basic health screening and declare any contraindications (e.g., pregnancy, cardiopulmonary disease, skin conditions)
- Physical Fitness: Ability to tolerate repeated positioning changes and mild probe pressure for 3–4 hours, with scheduled breaks. Can cooperate with brief (~30 seconds) breath-holding during USG examination.
- Communication: Fluent in English or Cantonese (or both); ability to communicate comfort levels clearly

- Professional Standards: Reliable attendance, punctuality, and willingness to work in a mixed-gender clinical education setting
- Consent & Compliance: Willingness to provide informed written consent and comply with all course and institutional policies

#### **Desirable Qualifications**

- Prior experience as a surrogate patient or volunteer in medical education
  - Familiarity with healthcare or clinical environments
  - Calm demeanor and can stay comfortable with educational examination procedures
- 

To apply for the post, please send a covering letter and detailed resume (with contact email / telephone number) by email to [johnson@hkam.org.hk](mailto:johnson@hkam.org.hk).
